INDEPENDENT AUDITOR'S REPORT

Board of Directors Fort Bend County Municipal Utility District No. 37 Fort Bend County, Texas

We have audited the accompanying financial statements of the governmental activities and major fund of Fort Bend County Municipal Utility District No. 37 (the "District"), as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Directors Fort Bend County Municipal Utility District No. 37

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the District as of August 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements information directly to the underlying accounting and other records used to prepare the basic financial statements with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

November 17, 2021

Management's discussion and analysis of the financial performance of Fort Bend County Municipal Utility District No. 37 (the "District") provides an overview of the District's financial activities for the fiscal year ended August 31, 2021. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Fund Balance Sheet and (2) the Statement of Activities and Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all the District's assets, liabilities and, if applicable, deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has one governmental fund type. The General Fund accounts for property tax revenues, customer service revenues, operating costs and general expenditures.

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Fund Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. A budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$5,837,447 as of August 31, 2021. A portion of the District's net position reflects its investment in capital assets (land and the water and wastewater facilities).

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The following summary of changes in the Statement of Net Position is presented as of August 31, 2021, and August 31, 2020:

51, 2021, and August 51, 2020.	~	0.01

Net Position, End of Year	\$	5,837,447	\$	5,650,274	\$	187,173				

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUND

The District's General Fund fund balance as of August 31, 2021, was \$3,474,892, an increase of \$24,705 from the prior year, primarily due to property tax revenues and service revenues exceeding capital outlay and operating expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors adopted an unappropriated General Fund budget for the current fiscal year. Actual revenues were \$356,369 more than budgeted revenues and actual expenditures were \$258,287 less than budgeted expenditures which resulted in a positive variance of \$614,656. The District reserves a portion of its property tax levy for future use and is not reflected in the budget column on page 22. See the budget to actual comparison for more information.

CAPITAL ASSETS

Capital assets as of August 31, 2021, total \$2,254,850 (net of accumulated depreciation) and include land, water facilities and wastewater facilities. The District completed its water well rehabilitation project in the current fiscal year.

Capital Assets At Year-End		2021	 2020	Change Positive (Negative)		
Capital Assets Not Being Depreciated: Land and Land Improvements Capital Assets, Net of Accumulated Depreciation:	\$	265,967	\$ 265,967	\$

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 37 RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2021

Net Change in Fund Balance - Governmental Fund	\$ 24,705
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report tax revenues when collected. However, in the Statement of Activities, revenue is recorded in the accounting period for which the taxes are levied.	75,032
Governmental funds report penalty and interest revenue on property taxes when collected. However, in the Statement of Activities, revenue is recorded when penalties and interest are assessed.	14,928
Governmental funds do not account for depreciation. However, in the Statement of Net Position, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities.	(124,244)
Governmental funds report capital expenditures as expenditures in the period purchased. However, in the Statement of Net Position, capital assets are increased by new purchases and the Statement of Activities is not affected.	 196,752
Change in Net Position - Governmental Activities	\$ 187,173

NOTE 1. CREATION OF DISTRICT

The District was created by an order of the Texas Water Commission, presently known as the Texas Commission on Environmental Quality (the "Commission"), effective February 24, 1981, in accordance with the Texas Water Code, Chapter 54. The Board of Directors held its first meeting on March 3, 1981. The District is empowered, among other things, to purchase, to construct, to operate, and to maintain all works, improvements and facilities necessary for the supply of water, for the collection and processing of wastewater, and for the control and diversion of storm water.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification").

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

• Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Restricted Net Position This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it's the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated to obtain net total revenues and expenses of the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the governmentwide financial statements. The fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Fund

The District has one governmental fund and considers it to be a major fund.

<u>General Fund</u> - To account for property tax revenues, customer service revenues, operating costs and general expenditures.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$5,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Estimated useful lives are as follows:

YearsWater and Wastewater Facilities10-45

Budgeting

An annual unappropriated budget is adopted for the General Fund by the District's Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the original budget amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

A pension plan has not been established. The District does not have employees, except that the Internal Revenue Service has determined that directors are considered "employees" for federal payroll tax purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Governmental fund balances are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally. The District does not have any restricted fund balances.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District has assigned \$1,717,546 of its General Fund fund balance to cover a budgeted shortfall in fiscal year 2022.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$2,139,666 and the bank balance was \$2,203,986. The District was not exposed to custodial credit risk at year-end.

The carrying values of the deposits are included in the Governmental Fund Balance Sheet and the Statement of Net Position at August 31, 2021, as listed below:

	Cash		of Deposit		 Total
GENERAL FUND	\$	906,844	\$	1,232,822	\$ 2,139,666

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Investors, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measures its portfolio assets at amortized cost. As a result, the District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from TexPool.

Certificates of deposit are recorded at acquisition cost.

As of August 31, 2021, the District had the following investments and maturities:

		Maturities of
Fund and		Less Than
Investment Type	Fair Value	1 Year
<u>GENERAL FUND</u>		
TexPool	\$1,255,822	\$1,255,822
Certificates of Deposit	1,232,822	1,232,822
TOTAL INVESTMENTS	\$2,488,644	\$2,488,644

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. As of August 31, 2021, the District's investment in TexPool was rated AAAm by Standard and Poor's. The District also manages credit risk by investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

NOTE 4. CAPITAL ASSETS

Capital asset activity for the year ended August 31, 2021 is as follows:

	September 1, 2020		Increases		Decreases		A	August 31, 2021	
Capital Assets Not Being Depreciated Land and Land Improvements	\$	265,967	\$	- 0 -	\$	- 0 -	\$	265,967

Total Capital Assets, Net of Accumulated Depreciation	\$	2,182,342	\$	72,508	\$	- 0 -	\$	2,254,850	

NOTE 5. MAINTENANCE TAX

On April 4, 1981, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$0.75 per \$100 of assessed valuation of taxable property within the District. The maintenance tax may be used to pay expenditures of operating the District's waterworks and wastewater systems and any other lawful purpose. During the year ended August 31, 2021, the District levied an ad valorem maintenance tax rate of \$0.49 per \$100 valuation, which resulted in a tax levy of \$995,536 on the adjusted taxable valuation of \$203,114,114 for the 2020 tax year.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 6. EMERGENCY WATER SUPPLY CONTRACTS

Pin Oak Village, Inc. entered into an Emergency Water Supply Contract with the City of Katy, Texas, ("City") dated November 12, 1981. Pursuant to the terms of that Contract, the interest of Pin Oak Village, Inc. was assigned to the District. The Contract has been extended, effective December 31, 2017, for a five-year period. The City agreed to pay \$1.50 per 1,000 gallons of water furnished by the District. If the City provides water to the District, it will be billed at 150% of the rate charged to single-family residential users.

Effective August 20, 1997, the District entered into a restated Emergency Water Supply Contract with Harris-Fort Bend Counties Municipal Utility District No. 1 and Harris-Fort Bend Counties Municipal Utility District No. 5, for a 40-year term.

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 8. WATER AND WASTEWATER AGREEMENTS

On May 19, 1999, the District entered into a contract with Michael Walton (an out-of-District developer) to provide a source of potable water and the treatment of domestic effluent. Each party will construct or improve their required facilities and the District will provide water and collect sanitary sewer at the District's boundary. This agreement was amended on April 20, 2005. The District will process the sanitary sewer and bill Michael Walton for his pro rata share of operating and maintenance of the water and wastewater treatment expenses. The term of this agreement is 40 years.

On March 19, 2014, the District entered into a contract with Fort Bend County Municipal Utility District No. 185 ("District No. 185") and Pulte Homes of Texas, L.P. ("Pulte"), an out-of-District developer, to provide a source of potable water and the treatment of domestic effluent. Each party will construct or improve their required facilities and the District will provide water and collect sanitary sewer at the District's boundary. The District will process the sanitary sewer and bill District No. 185 for its pro rata share of operating and maintenance of the water and wastewater treatment expenses. The term of this agreement is 40 years.

NOTE 9. NORTH FORT BEND WATER AUTHORITY

The District is located within the boundaries of the North Fort Bend Water Authority (the "Authority"). The Authority was created by an Act of the Texas Legislature. The Act empowers the Authority for purposes including the acquisition and provision of surface water and groundwater for residential, commercial, industrial, agricultural, and other uses, the reduction of groundwater withdrawals, the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and the control of subsidence caused by withdrawal of water from those groundwater reservoirs or their subdivisions. The Authority is overseeing that its participants comply with subsidence district pumpage requirements. The Authority charges a fee, based on the amount of water pumped from a well, to the owners of wells located within the boundaries of the Authority, unless exempted. The current rates charged by the Authority are \$4.25 per 1,000 gallons of water pumped from each well and \$4.60 per 1,000 gallons of surface water purchased. The District recorded expenditures of \$480,171 for fees assessed during the current fiscal year.

NOTE 10. BOND AUTHORIZATION

At an election held April 4, 1981, the voters of the District authorized the issuance of bonds up to \$10,000,000 for the purposes of acquiring or construction water, sewer and drainage facilities, of which \$4,200,000 remain authorized but unissued. At an election held October 7, 1989, the voters of the District authorized the issuance of bonds up to \$15,000,000 for the purposes of refunding previously issued bonds, of which \$3,160,000 remain authorized but unissued.

NOTE 11. EMERGENCY SERVICES AGREEMENT WITH THE CITY OF KATY

On January 11, 2021, the District entered into an agreement with the City of Katy (the "City") whereby the City will provide fire protection and emergency medical and ambulance services to the Pin Oak Village subdivision. The monthly charges (currently \$10,316) will be adjusted annually beginning on January 1st. The agreement has a term of 20 years.

NOTE 12. ECONOMIC UNCERTAINTIES

On March 11, 2020, the World Health Organization declared the COVID-19 virus a global pandemic. Since that time, the District has not experienced any decrease in property values, unusual tax delinquencies, or interruptions to service as a result of COVID-19. The District will continue to carefully monitor the situation and evaluate the financial statement impact, if any, that results from the pandemic.
